

# VLM Airlines reopens the route Antwerp-Birmingham

Double frequency on the Antwerp-Munich route

Monday 26 March 2018 — Today, a VLM Airlines Fokker 50 departed at 12.40 P.M. from Antwerp Airport to Birmingham, the second largest city in Great Britain, thus establishing a daily connection between Antwerp and the West Midlands capital. At VLM Airlines, a drink and snack are included in the ticket price and every passenger is entitled to check in a baggage of up to 23 kg free of charge. At Antwerp Airport, passengers can check in up to 20 minutes before the scheduled departure time of their flight.

At the start of the summer season, the flight program underwent some changes. The morning flights to Munich and Maribor depart three hours earlier than before and from now on VLM Airlines will operate both in the morning and in the evening return flights from Antwerp to Munich.

VLM Airlines also offers scheduled flights from Antwerp to London City Airport (3 to 4 return flights daily on weekdays), Zurich (twice a day on weekdays) and Maribor. The airline also operates a daily frequency on the Munich-Maribor route (weekdays only).

VLM Airlines employs more than 100 aviation professionals. The fleet consists of 6 Fokker 50 turboprop aircraft.
